

IFP-501-A Series

Interface Wall Panel

(Plug and Play Concept with Audio Amplifier)

Interface Wall Panel with Built-In Power Amplifier
30 watts

DESCRIPTION

The **ABTUS IFP-501-A** is a UK double gang box AV interface panel designed for any multimedia classroom or boardroom application. With its plug-in / pre-connected cables, it can be easily integrated on walls, lecterns, podiums and desktops. This standardization of interface panel in classrooms make operation, setup and maintenance simple. **ABTUS IFP-501-A** offers 2 VGA, 1 PC audio, 1 composite video and 1 USB inputs.

TYPICAL APPLICATIONS

Any professional presentation system requiring multiple AV inputs of all different type of Video standard and a standard interface wall between the projector that hang up in the ceiling as well as all the AV source.

➤ Schools (Media Classroom) ➤ Churches ➤ Corporate Applications (Meeting Room)
