

IFP-502A

Interface Panel, 2 RCA (Audio), 1 PC Audio with Built-in Amplifier and Cable Kit

The ABtUS IFP-502A is an integrated interface panel with built-in Audio Amplifier of 30W per channel. It is ideal for a multimedia classroom integration for audio routing and amplification.

Features

- Output Power at 30W per channel
- Easy Installation

Technical specification

Input:	1 x 3.5mm PC Audio
	2 x RCA AV/Audio
	1 x 3.8mm connector (DC Power)
Output:	2 x 3.8mm connector Speaker out
Max audio output power:	30W per channel
Speaker impedance:	4 to 16 ohm
Power source:	18V-DC, 3A
Dimension:	149 x 88 x 31 mm
Weight:	350 g
Housing:	ABS
Accessories:	AC-DC Power Adaptor 18V-DC, 3A

IFP-502A

Interface Panel, 2 RCA (Audio), 1 PC Audio with Built-in Amplifier and Cable Kit

Typical applications

Any professional presentation system requiring multiple AV Inputs of all different types of Video standard and a standard projector controller.
• Schools (Media Classrooms) • Churches • Corporate Applications (Meeting Rooms)
